- This medicine relieves symptoms of various rheumatic and muscular pains when applied to the skin.
- It can be used on adults and children over 6 years.

### Do not use....

- On broken skin.
- On children under 6 years or any child with a history of fits.
- If allergic to aspirin. See section 2.

### Talk to your doctor....

- If taking medicines used to prevent blood clotting such as warfarin. See section 2.

**Now read the rest of the leaflet before you use this medicine. It includes other information which might be especially important for you.**

- Keep this leaflet. You may need to read it again.
- Ask your pharmacist if you need any more information or advice.
- If any of the side effects gets serious, or if you notice any side effects not listed in this leaflet, please tell your doctor or pharmacist.

## 1. What the medicine is for

Algesal is a cream which contains diethylamine salicylate, a local analgesic to relieve the pain of rheumatic and minor muscular conditions including lumbago, fibrositis, sciatica, bruises and strains.

## 2. Before you use this medicine

**Do not use the medicine if ....**

- You are **allergic** to any of the ingredients listed in section 6.
- You are **allergic to aspirin or medicines like aspirin.**
- **The surface of the skin is broken.**
- **A child is under 6 years old or has a history of convulsions (fits).**

**Talk to your doctor or pharmacist if you are....**

- Asthmatic.
- Elderly, as using too much could cause agitation and confusion.

### Warnings and Precautions

Do not smoke or go near naked flames - risk of severe burns. Fabric (clothing, bedding, dressings etc) that has been in contact with this product burns more easily and is a serious fire hazard. Washing clothing and bedding may reduce product build-up but not totally remove it.

**Talk to your doctor or pharmacist if you are taking ....**

- Medicines used to prevent blood clotting such as warfarin, as the anti-clotting effects could be increased by using Algesal.
- Methotrexate used to treat severe rheumatoid arthritis or certain cancers, as using Algesal could lead to toxic levels of methotrexate in the blood.
- Any other medicines including those bought without prescription.

### Pregnant or breastfeeding....

Ask your doctor or pharmacist for advice before using this medicine if you are pregnant, might be pregnant or are breastfeeding. Algesal should not be used in pregnancy or breastfeeding unless the doctor has told you to do so.

### Important information about some of the ingredients

This medicine contains fragrance with d-limonene and linalool, which may cause allergic reactions.

## 3. How to use this medicine

Apply it to the skin.

### Adults, the elderly and children over 6

- Apply a small amount to the affected area and massage until the cream is fully absorbed.
- Always try Algesal on a small area of skin first.
- Always use sparingly.
- Avoid contact with eyes and sensitive areas of the skin.
- Apply 3 times a day to the affected area.
- Wash hands well after use.

### Children under 6 years Not recommended.

If your symptoms worsen or have not improved after 7 days of treatment, you should ask your doctor for advice.

Turn over 92769632009

**If you use too much or swallow some** If you accidentally apply Algesal to a large area of skin and you feel unwell see a doctor straight away.

Use on large areas of the skin may cause too much to be absorbed and make you feel agitated and confused.

Also see a doctor if you accidentally swallow some. Take the pack with you to show which medicine you have swallowed.

## 4. Possible side effects

Like all medicines, Algesal can have side effects, which are usually mild, although these don't affect everyone.

- Temporary skin reactions such as redness, a burning sensation and rashes may occur.
- You may experience discomfort if used in hot weather or after a hot bath or if you have sensitive skin.

If you notice excessive skin irritation or any other side effect not included above, stop use and tell your doctor or pharmacist. They will tell you what to do.

### Reporting of side effects

If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in this leaflet. You can also report side effects directly via the Yellow Card Scheme at [www.mhra.gov.uk/yellowcard](http://www.mhra.gov.uk/yellowcard) or search for 'MHRA Yellow Card' in the Google Play or Apple App Store.

By reporting side effects you can help provide more information on the safety of this medicine.

## 5. Storing this medicine

- Keep it out of the sight and reach of children.
- Do not store above 25°C.
- Do not use after the expiry date shown on the carton. The expiry date refers to the last day of that month.
- Medicine should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of any unused medicine. These measures will help to protect the environment.
